

ACODE Executive Officer Report July 2017 ACODE 74

Welcome to ACODE 74.

So far 2017 has been an extremely busy year for ACODE.

THETA was again a great success and we are just waiting on the final reports from CAUDIT.

As you will hear from Vice President Michael Sankey the UK Benchmarking event was also a great success and Michael will fill you all in on the triumphs we have had there with JISC.

The Annual report has been completed but as yet not distributed due to time constraints but I hope to have that completed in the next month. I do have a few copies available here if anyone would like a copy please ask me.

We have had a number of Institutions updating membership details which is great to see. Please look at the membership page and if you notice any anomalies please let me know.

Our Exec has had four meetings this year online and then again prior to ACODE 74 face to face.

Our accounts are in good order and the Auditor was happy.

The ACODE/Pearson TEL awards will be judged in the coming weeks with the announcement of the winner to be made at the Australian Financial Review Higher Education Summit in Sydney 29-31 August. This year we had 21 submissions another healthy result.
