

ACODE Executive Officer Report April 2018 ACODE 76

Welcome to ACODE 76.

We still have some outstanding invoices for 2018 membership so you may get an email soon if this has been overlooked.

The BAS statement has been paid for December and financially we are tracking well but will be better when outstanding invoices are received. March Bas will be due when I am back in the office.

Our list of enrolled members in the news forum continues to increase, if you know of anyone wanting access to the forum please ask them to contact the secretariat. secretariat@acode.edu.au

Many of you may have tried to access the benchmarking tool which we are in the process of updating. This update is needed as we have upgraded the website from *http* to *https* for a more secure protocol.

I have fielded enquiries from 2 other institutions and am just waiting for their Managers to approve that their institutions will become members.

Theta planning for 2019 is well underway.

Benchmarking registration is open on the website. Please register if your institution is participating. The Benchmarking Summit will be held in Brisbane 25-27 June 2018.

Our final meeting for 2018 will be at the University of Tasmania in Hobart 1st and 2nd November 2018.

Karen Halley
Executive Officer
4th April 2018
