

1 | Champion University

A hands-on government actively champions universities as strategic national assets. Most students enrol in traditional undergraduate and graduate degree programs. Universities streamline operations by transforming service delivery and administration.

Make group notes below on issues and influences that you see as desirable to incorporate this potential scenario into your university's longer-term planning, based on what you have read and heard from today's speakers. If you have examples of practice that could help other universities in planning, make a note of those too.
